DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 74-76 are rejected under 35 U.S.C. 102(e) as being anticipated by Ohno et al, 6,179,689 (cited by applicant, paper no. 4). Please refer to figure 6 and it's description. Note that as there is no guide roller in the device disclosed by '689, the installation of the supply and take-up rolls is completed without passing the medium adjacent a guide roller. Applicant has not claimed a device, only the method. If the device doesn't have a guide roller, the method step of avoiding a guide roller is met.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar cassettes, for other uses, are cited of interest.
